Upwardly Global’s DEI Employer Working Group Convenes

On October 6th, Upwardly Global convened its DEI Employer Working Group, made up of over 60 corporations, to continue the important work to co-create solutions to better support all vulnerable communities and to integrate immigrant and refugee talent into our workforce.

We convened employers to provide relevant employer specific information on the latest refugee crises. Partners at Fragomen (link) joined to share the latest on what employers can expect when screening and hiring Ukrainian job seekers from a legal and work authorization perspective. On the Afghan crisis, we shared with employers tips around successful integration of Afghan new-hires, making them aware of accommodations needed for cultural and religious practice in the workplace. Lastly, we were thrilled to welcome Amazon and Deloitte who shared their plans and models for how they are committing to hiring refugees and the accompanying infrastructure they are building internally to support this work. Please contact kim@upwardlyglobal.org if your company is interested in joining this bi-monthly working group.
